WHY WOMEN ARE SHREWD BUYERS

Any man will tell you that his wife can get more out of a dol-lar than he can.

Women have the natural value sense — they know what their money's worth means.

One reason for this is women are great readers of advertising. No part of a newspaper is of greater interest to them than the advertising col-

they shop as carefully through the newspapers as they do when they go to the stores themselves. Without the advertising, the newspapers would lose half of their women readers. Incidentally, local merchants would lose ore than half of their business. Would you like to know more about it while you are working on your plans?
